

# Cheapest Time to Book Flights Deal Board Kit

Great Price Flights v9.2 - multi-option flight deal comparison board, true fare calculator, winner logic, proof screenshot plan, and final validation checklist.

Use this kit to compare multiple fares side by side by final cost, schedule, airport friction, baggage/seat cost, and booking risk.

## 1. Deal Board Inputs

Input	Why it matters
Base fare	The advertised fare before extras.
Bags + seats	Turns a cheap base fare into a more realistic fare.
Airport transfer	Adjusts for nearby airports, late arrivals, and ground transportation.
Timing penalty	Adds friction for bad arrival/departure times, long layovers, or lost trip time.
Flexibility risk	Adds a caution score for strict basic economy, poor refund rules, or fixed-date trips.
True fare	Base fare + extras + transfer + timing friction.

## 2. Winner Logic

Situation	Recommended decision
Lowest true fare also has good schedule	Likely best deal.
Lowest base fare has high extras	Do not book until true fare is compared.
Nearby airport saves little after transfer	Choose simpler airport or better schedule.
Best schedule costs modestly more	May win for short trips, family trips, and fixed dates.
Cheap fare has strict rules	Use fare decision score before booking.

### 3. Proof Screenshots to Add Later

Proof slot	Suggested screenshot
Deal board result	The page's comparison board with 3 real fare options.
Option A checkout	Base fare + bag/seat fees.
Option B checkout	Better schedule or included extras.
Nearby airport option	Fare difference plus transfer time/cost.
Basic economy warning	Fare rules, cancellation, carry-on, or seat restrictions.
Final booking decision	Redacted summary showing chosen fare and reason.

### 4. Final Validation

- Deal board calculator works on desktop and mobile.
- Fare watch log still works.
- Flight booking calendar still works.
- Route timing estimator still works.
- Booking window tool and fare decision score still work.
- Support pages load.
- PDF opens and downloads.
- Real screenshots are redacted, compressed, captioned, and lazy-loaded after upload.

## 5. Best Linkable Asset Angle

Pitch this page as a free flight deal comparison board that helps travelers compare multiple fares by true cost instead of advertised base fare. It combines booking timing, target fare tracking, calendar checkpoints, and hidden-fee comparison in one page.
